

TRAINING COURSE

LIQUIDITY REGULATION: CONCEPTS, METHODS AND APPLICATIONS

Organised by: The Florence School of Banking and Finance

Course Instructors:

Bart P.M. Joosen | VU University (course director)

Stefano Capiello | Florence School of Banking and Finance

Jeroen Van Bommel | European Central Bank

Jean-Jacques Van Helten | Visiting fellow, RSCAS; formerly Bank of Montreal

Sala Europa

Villa Schifanoia, Via Boccaccio 121 - Florence

27-28 SEPTEMBER 2018

■ INTRODUCTION

Since 2014 European Banking laws have been supplemented with harmonised rules for liquidity management and reporting. These rules fundamentally impact the conduct of banking business, and have significant implications in case of banking failure. The course focuses on the legal and regulatory aspects of this new framework for banks, by looking at both stages of going concern (ILAAP, liquidity, stress testing, LCR, NSFR) and gone concern (liquidity as the driver of failure; management of liquidity in resolution) By close reading the relevant rules and regulations adopted since 2014 course participants will get acquainted with the full details of this complex framework and the impact it has on the (contractual) relationship between banks and its customers and liquidity providers, and its consequences for banks' resolvability.

■ PROGRAMME

27 SEPTEMBER

09.15 - 09.30 Welcome and presentation of the Florence School of Banking and Finance
